

What did you like most about the session today?

Hearing examples of scenarios and how different people go about approaching it.
Seeing different answers presented in various ways.

- The fact that we had to speak in front of everyone
- The practice cases
- The feedback

- very comprehensive
- professional and informed lecturers
- good to benchmark myself and 'size-up' the competition

I learnt so much more than I thought I would and it was fantastic to measure where I was at and my weaknesses.

I found the fact that we as a class discussed the scenarios and received immediate feedback most helpful.

The thorough coverage of the content and types of questions that we might expect on the day, as well as the opportunity to practice answering sample questions on the spot and receive actionable feedback.

The opportunities I had to try a question on the spot to see where I'm at and how I respond to being put on the spot.

Wholesome coverage of the skills necessary to succeed, speaking, structure, emperary, etc.

Being able to hear everyone else's responses

The asking of questions and being put on the spot to answer the questions.

Hearing others.

I learnt a lot about what a good answer to interview questions involves

Because I feel that it was very helpful in preparing me for the types of questions that may appear.

It gives you an idea of what the interviews will be like and how to prepare for it. Also what kind of answers will be better

Went through questions in detail, and explained the philosophy behind them and ~~also~~ how to approach them, as opposed to what to say. Very good this close to the interviews.

It was extremely useful as I had no idea beforehand.

- Preparation is paramount for something as significant as the interview.

~~It~~ It gives a really good insight into what to expect in the interview

It gives great feedback, understanding of the questions and awareness of peer performance.

Really teaches you to think in a different way that is applicable in many areas.

Good opportunity to improve answers and have fun.

If you have an interview, this can give you very ~~specific~~ specific info you will not find ~~else~~ elsewhere.

- Provides valuable insight into the nature of the interview itself

Very helpful and gained many tips.

I had a completely different idea of what the interview will be like but now have a greater understanding and am more confident.

Because it is very beneficial and it is helpful for throughout life.
